## LOCAL MATTERS.

**The Weather Probabilities.** June 10, 1881.—For the Middle Atlantic States, warmer, cloudy and rainy, followed by clearing, weather, winds westerly to northerly, higher barometer.

**YORKTOWN.**—If the weather permits, Mr. Good will deliver his address on the Yorktown celebration to night at 8 o'clock at Army Hall. All who go may expect to hear a very interesting address, and enjoy a most agreeable evening.

**BUSINESS AROUND THE WHARF.**—Business around the wharf, did not owe to the inclemency of the weather, but did not load very brisk. There was considerable freight on Mr. F. A. Hest's wharf to be shipped to Norfolk to night. A number of men were engaged in putting a large boiler in the hull of the steam tug Comet, which is lying at the foot of Prince street. At the ship yard, where the steam John W. Thompson and four small schooners are under repair, things looked more lively. A large boat is also in course of construction at the yard. The Hampshire and Baltimore coal yard, which by the way, was cleared for sale some time ago, is well stocked with coal, but at the American coal yard there is not a lump of coal, and consequently nothing going on. There are no boats in the canal, and the voice of the canal business is not heard as formerly at this season of the year.

**COMMON COUNCIL LAST NIGHT.**—The adjourned session of the Common Council last night was a brief business meeting—much work no talk.

President Beckham stated that the question before the Board was the consideration of the bill imposing \$1.50 tax on real and personal estate for the coming year, and that the bill was on its second reading and still subject to amendment.

Mr. Harmon reintroduced the amendment of Mr. Broder's authorized the payment of taxes in two installments in July and December, and giving discount on both.

There was no second and the amendment failed, and the bill was read the third time, and passed.

The salary bill and the appropriation bill were each read the first time, and the Board adjourned.

**SUDDEN DEATH OF A COLORED MAN.**—A colored man named Philip Roman, while at work handling grain in the second story of the establishment of Messrs. Beckham & Co., in company with a large number of other colored men, was taken suddenly with a convulsive chill, about half past 10 o'clock this morning, and fell heavily to the floor in an unconscious condition. Mr. John G. Beckham, who was present, sprang forward and had the man conveyed to his home in an alley on Columbia street, where he died before Dr. D. M. French, who was sent for, could reach him. The deceased, who is said by Mr. Beckham to have been a sober, industrious man, was apparently in perfect health up to the time he was stricken down. His sudden death and death caused great excitement among his co-laborers.

**THE THIRD WARD MAJORITY.**—The 3rd ward Mahone Redoubter club, composed mainly of colored republicans, was held last night. The attendance was large. Speeches were made by L. E. Payne, R. Henry Simpson, D. W. Whitlock, and others. The meeting was a most successful one, and the speakers were enthusiastically received. The meeting was held at the residence of Mr. J. H. Adams, on King street. The meeting was held at the residence of Mr. J. H. Adams, on King street. The meeting was held at the residence of Mr. J. H. Adams, on King street.

**THE RAIN STORM.**—The farmers have commenced to complain of the long term of wet weather, rain having continued to fall, with slight intermissions for over a week. The rain storm which commenced Tuesday last, has been general all over the country, accompanied in some places by hail, causing the temperature to fall to such a degree as to make life comfortable, if not necessary. All the railroad trains from the North arrived here late to day, owing to the failure to make connections, without having occurred on the Baltimore and Ohio and other roads. Yesterday's predictions that June would be a wet month, and that there would be frost between the 5th and 10th, have certainly proved correct thus far.

**PRIZE GOLF.**—A handsome silver goblet offered by Mr. J. T. Beckham as a prize to the team making the best score at the shooting at Gwynn's on the 15th instant, the occasion of the A. L. I. excursion, is on exhibition in the window of Mr. R. L. Adams, on King street. The goblet is a handsome one, standing over a foot high. The bowl, which rests on a stem of glass, is surmounted by a figure in the act of shooting. The prize, as it stands in the window of Mr. Adams, is accompanied by the following note: "To be presented by the Hon. J. T. Beckham to the successful team at the shooting on the A. L. I. excursion, at Gwynn's, on the 15th inst."

**THE THEOLOGICAL SEMINARY.**—The Commencement exercises of the Theological Seminary will take place as follows: On Wednesday, June 12, meeting of the Society of the Alumni at 11 a. m. After this meeting Bishop Lee, of Delaware, will read an essay on the revision of the Bible. Alumni dinner at 2 p. m. Wednesday night the Rev. Dr. Campbell Fair, of Baltimore will deliver the sermon before the anniversary of the Seminary.

Thursday, June 23, graduating essays of the senior class at 10 a. m. Consecration of new chapel at 12 m. Delivery of diplomas in the afternoon.

**A NEW RAILROAD.**—The projectors of a new narrow gauge railroad, the terminal points being on the Ohio and Potomac rivers, assembled in Philadelphia on Wednesday, to decide upon the best way of putting the stock on the market. It is to be called the Atlantic and Ohio Railroad, to run through the bed of one of the richest iron and coal regions of West Virginia, and when completed to be 45 miles long. Among those present at the meeting were a number of representative men from New York, Philadelphia, Missouri, Connecticut and other States.

**FUNERAL OF THE LATE MR. S. B. CORNWELL.**—The funeral of the late Mr. S. B. Cornwell, took place from the Alms House, of which he was the efficient superintendent, this afternoon, and was attended by a number of the members of the City Council, and other friends from this city and Washington. The pall bearers were Messrs. Downham and Rishoff of the Board of Aldermen, and Messrs. Douglas, Peake, Rice and McLean, of the Common Council. The remains were brought here and interred in the M. P. Cemetery.

**THE ST. JOHN'S CADETS.**—The following note was received here to day:

LEONARDTOWN, Md., June 9—3 P. M. The cadets of St. John's Academy have just arrived here on the T. V. Arrowsmith, in a heavy rain, and will march immediately to the Court House. Boys all well and enjoying themselves.

**KILLED BY A TRAIN.**—The north bound passenger train on the Danville division of the Virginia Midland railway, when two miles north of Potomac depot, in Campbell county, yesterday, struck a colored girl, about 13 years old, fell on her head, and was killed. It seems that the girl attempted to cross the track directly in front of the engine, and the engineer did not have time to stop the train in time to save her life.

**NEW QUARTERS NEEDED.**—As the noble, through addition, red man, after going for centuries at the office and flowing of the broad Potomac, was compelled to migrate westward before the advancing tide of civilization, so will several specimens of the genus homo of Anglo-Saxon derivation, who, in these many years, have been engaged in a similar occupation from a small peninsula within the very bounds proposed to be utilized by the new iron works, be to the same trouble to fix upon another spot where they can, like the augurs of old, muse over the flight of birds undisturbed by the roar of furnaces, the vibration of trip hammers or the clatter of cranking irons and mallets.

**A NEGRO SHOT IN A DISPUTE.**—At Danville Tuesday night last two colored men got into a dispute over some trivial matter, when one of the disputants drew a pistol and shot the other, killing him instantly. The murderer was arrested.
